

WEEKLY REPUBLICAN—1907.
DAILY PUBLIC LEDGER—1899.

MAYSVILLE, KENTUCKY, WEDNESDAY, NOVEMBER 27, 1918.

ONE COPY—ONE CENT.

COMMITTEE NAMED TO ATTEND GREAT RIVER CONFERENCE

Mayor Thomas M. Russell Names Prominent Citizens to Represent Maysville at Big Louisville Conference.

Mayor Thomas M. Russell this morning named Messrs. J. N. Kehoe, C. M. Phister, E. T. Kirk, William Gropenbacher, J. B. Russell, George A. Dodson, H. P. Purnell, Joseph H. Dodson, Carl Dodds and F. L. Hendrickson as Maysville's official delegates at the annual meeting of the Ohio Valley Improvement Association to be held December 11 and 12 at Louisville.

It is expected that the majority of these men will attend the convention and Mayor Russell expects to be present to assure the men, who for years have worked so faithfully for the nine foot stage, that Maysville is still with them and anxious to see the river back in its old place in handling the freight of the country.

Captain John L. Vance, the veteran president of the Association, in writing Mayor Russell says: "With the return of peace it is more vitally necessary than ever that this great waterway should be equipped to do its share in carrying out America's new problem."

The return of the Ohio river to its old time place in handling the freight of the country would greatly benefit Maysville and we have always shown our interest in the revival of business. The Ohio Valley Improvement Association is the one organization that has kept up interest in the Ohio river during all of the dark days when it seemed certain that the railroads would take away all of the business of the river and cause the banishing of all the boats. They deserve the hearty co-operation of all river towns and cities and especially at this time when new light is dawning and it appears that the river will have its place returned to it in part at least.

All Union Barber Shops will close at noon Thursday Thanksgiving Day.

Books make a most appropriate gift. Your choice 65c. DE NUZIE.

Just received, earlond Fancy Northern Potatoes, \$3.75 cash per bag, of 2 1/2 bushels. H. LEE LOVELL.

Had Kaiser Bill's foresight been correct he would still be on his throne.

Poor Bill was looking forward to being the ruler of the world, but his vision was somewhat blurred. He made one mistake after another and at last he will get his just deserts. You may be looking and planning for a happy future, but if your vision is not clear you will make no mistake by consulting W. L. L. I. A. M. S. at Druggstore. Prices always moderate.

MOVIES FOUND IN GOOD CONDITION BY HEALTH BOARD

Maysville Board of Health Inspects Local Moving Picture Houses and Finds Them in First-Class Condition.

Preparatory to the lifting of the ban on next Monday, the Maysville Health Board yesterday afternoon made a complete inspection of the local moving picture theaters in the city and found them all in first-class sanitary condition.

All of the theaters are provided with a splendid system of ventilation and with the proper precautions there will be no danger of a spread of the disease through these places of gathering. It is known that the managers with use every precaution known or suggested by the health authorities.

The Washington is large with plenty of ventilators above and many doors and windows below while the heating apparatus keeps the temperature at the same degree at all times.

The Pastime has a system of ventilation approved by the health authorities and given the official O. K. of the Maysville Health Board. Manager Triebke has made arrangements to conform to all of the present or future instructions of the authorities.

The Gem is one of the most sanitary little theaters in the state of Kentucky. It is remembered that this theater is practically new and the plans upon which it was constructed provided for ample ventilation as calculated by an expert. The Health Board members found this little theater practically perfect as to sanitation.

Manager Russell of the Washington and Gem will co-operate with the health authorities in every way and there need be no fear of attending any of the theaters if the individual takes as much precaution as the management of the theaters.

The Washington and Gem Theaters will not open immediately upon the lifting of the ban but as soon as all restrictions are removed these houses will also open.

DISPOSAL OF CITY'S GARBAGE A QUESTION

Seems to Be One of Those Never Ending Themes That Is Full of Suggestions From All Sources.

What will we do with our garbage? How will we get rid of it? What is Council going to do about it?

And numerous other inquiries have been made of late to almost every member of the City Council, until it has gotten to the place where action and not talk seems to be the only explainable way out of the tangled situation.

Some time ago we had a clean-up campaign in this city that was very creditable, the old town being cleaned from "end to end."

During this clean-up it was found that what was needed in order to keep it clean was some one to go over the city more frequently than once a year, that at least once a week what is actually needed to keep it clean after it had been cleaned.

At the last regular meeting of the City Council the Propositions and Grievances Committee made a report on this subject that came very near filling the bill. The Committee advised that systematic arrangement be made for the collection and disposal of garbage; that the city manage and control the collection and disposal of said garbage; and that this whole matter be referred to the Laws and Ordinances Committee, to frame an ordinance covering the matter, embodying therein that an office be created styled City Garbage Collector, to be elected by the Council.

This committee has been diligently at work the past two weeks in trying to frame an ordinance that would cover the above suggestions and that will be satisfactory to the city as a whole and at the same time be a lawful ordinance, but it has met with some opposition, which was to have been expected.

However, it is thought that a law will be presented to the next meeting of Council that will cover this question and that when put in force will prove a great move toward helping to keep our city clean and sanitary.

But this ordinance will only cover the collection and disposal of garbage, and it will still be a matter of how much our citizens really want a clean city by trying to keep it clean every day; by seeing that all the refuse is promptly removed from their premises every day; and by helping the City Administration in its endeavors to keep the city clean, and not wait until spring and then cause a heavy expenditure of the city's funds for a purpose that could easily have been prevented by all keeping constantly on the clean-up job.

It's as much your city as it is Mayor Russell's or the City Council's. So help to keep it clean every day.

J. N. TEAGER WEDS PARIS WIDOW

Paris, Ky., November 27—James N. Teager, 54 years old, and Mrs. Robeen Rudisill, 52, both residents of Paris, were married at Covington this afternoon. Mrs. Rudisill is a wealthy widow. Mr. Teager is a traveling salesman for the Murray & Thomas Company of Maysville. He formerly resided in Maysville. He is a widower. An adopted daughter of Mrs. Rudisill was married to Warren Bacon, well-known horseman of Paris and Alabama.

HELD FOR GRAND JURY

In Squire Fred Dresel's Court this morning Pickett Marshall, colored, was tried on the serious charge of seducing a female under 21 years of age. He was held to the Mason County Grand Jury by the examining court and his bail was fixed at \$400. Failing to give bond he was taken to jail to await the meeting of the December Grand Jury.

SOME THANKSGIVING DINNER

Mrs. Mattie Lyons will serve the following dinner at the restaurant Thanksgiving day: Roast Turkey, Gravy and Dressing, Cranberry Sauce, Mashed Potatoes, Baked Macaroni, Escalloped Oysters, Baked Sweet Potatoes, Iced Cream and Cakes or Pie, Coffee or Tea. This meal will be served for 75c per person. No. 123 West Second Street.

MAYSVILLE GETS MORE GOOD CITIZENS

Mr. Thomas F. Galtier, who recently sold his place of business at Marshall Station and resigned as agent for the L. & N. railroad company at the same place, will move to Maysville to make this city his home. Maysville extends in Mr. Galtier and his splendid family a hearty welcome.

NO LEDGER TOMORROW

The Public Ledger will not be issued tomorrow—Thanksgiving day—permitting our entire force to attend Thanksgiving services and spend the day at home with their families.

CHRISTIAN CHURCH NOTICES

The time has come when the barrel of canned fruit should be sent to the Christian Church Widows and Orphans Home. Therefore those having fruit canned which they will donate are asked to bring it to the church on either Thursday or Sunday morning; at which times the vestibule of the church will be open.

It was decided a year ago that the new financial year of this church should begin with the first of October instead of the first of January. In accordance therewith new envelopes have been secured for those making weekly contributions. Many of these were claimed the first of October. Others are being distributed now. To avoid confusing the financial treasurers, the envelope with the new number should be used.

BATCH DEFERRED TREASURY POSITION

Washington, November 27—Bernard M. Baruch, chairman of the War Industries Board, it was understood today, has been offered the post of Secretary of the Treasury, to succeed Secretary McAdoo.

Whether he will be nominated is an open question. Without actually declining to serve, it is said, Mr. Baruch has urged upon the President strongly his belief that he should not enter the Cabinet, on the ground that his wealth, largely in Government and other securities, would be seriously embarrassing.

FAIR WEATHER FOR THANKSGIVING DAY

Fair and warmer weather is predicted for Thanksgiving Day by Weather Forecaster Devereaux. The weather was clear in the Central and Northern States Wednesday, but rain was reported in the South, to as far north as Tennessee. There has been a general rise in the temperature in the Western States. The coldest point reported Wednesday was at Flagstaff, Ariz., where the temperature was below zero. The temperature at Maysville is not expected to go below freezing Thursday morning.

UNION THANKSGIVING SERVICES

The churches of the city will unite in the regular Thanksgiving services this year in the Christian Church. The time of the service is 10:30, Rev. B. B. Bailey of the Baptist church will give the sermon. The offering for the day will be for the City Mission. The adults of this community are cordially invited to attend this service.

Messrs. Myron Metz, John W. and William Mathews will motor to Danville Thursday to witness the Centre and Georgetown football game. Mr. George H. Fitzgerald will accompany them as far as Lexington where he will take in the State-Tennessee game.

There will be one city mail delivery tomorrow. No rural route delivery and the Post Office will be open from 8 to 11 a. m. only.

When in doubt give a magazine subscription. Bring pleasure the year round. DE NUZIE.

The Working Society of the First Presbyterian Church will meet Friday afternoon at 2 o'clock.

SCHOOL HEAD MAKES STATEMENT ABOUT RE-OPENING

Prof. Caplinger Says All Buildings Are Being Put in First-Class Condition For Reopening.

Prof. W. J. Caplinger this afternoon issued the following statement:

As we stated in Tuesday's papers it is our intention of opening the City Schools, Monday morning, December 2nd. The Chairman of the local Health Board informs me that the situation here is improving day by day. While there is a possibility of the State Board of Health countermanding the action of our local Board, yet we feel sure since the local Board has been very careful and deliberate in its proceedings that the State Board will be governed by the local Board's recommendation. We are having all of the buildings thoroughly fumigated at the close of this week and have been having the floors sprinkled with a strong disinfectant the last five weeks. As all of our school buildings are well ventilated and are kept in the very best sanitary condition, we think that by strict observance of the precautionary measures recommended by our Board of Health that the children will be in no more danger of contracting any form of illness than they are at present, roaming the streets.

We will not permit anyone to attend school in which there are cases of the influenza in the home, neither may anyone attend school until ten days have elapsed since the doctor has dismissed the case.

All teachers are instructed to watch very carefully for any symptoms of the disease and the janitors are instructed to keep the rooms opened during recesses and after school hours.

For the benefit of students coming to school in public conveyances, we will not allow overtime work to interfere with their meeting the schedule of departure of such conveyances.

In general, our policy will be to meet as near as possible the convenience of our patrons, however, there is a certain amount of mental training that must be accomplished if the year's school work is not lost.

W. J. CAPLINGER,
Superintendent City Schools.

Miss Maggie Clooney and Master Thomas Rupp have returned to their homes in this city after visiting relatives in Covington.

LAWLER MUST PAY WITH HIS LIFE

Cincinnati Habit Must Die In Electric Chair Says Court of Appeals.

Frankfort, Ky., November 27—The Court of Appeals yesterday affirmed the Kenton Circuit Court in sentencing James Lawler, Cincinnati habit, to the electric chair for the murder of Andrew Nordmeyer and John Rhein, Directors of the Ninth Ward Building Association Company, Twelfth and Russell streets, Covington, last spring.

Lawler's partner in crime, Pat Kearney, Cincinnati, is to pay the same penalty. The two bandits were captured, and another robber, "Zeke" Moran, was killed in a raid upon the headquarters of the building association last March. Chief of Police Theodore Klumpp, of Covington, was wounded when exchanging shots with the robbers.

Kearney and Lawler escaped from the Kenton County Jail. Kearney was recaptured without difficulty, but Lawler was retaken only after a battle with Cincinnati police, who surrounded a house where he was in hiding in Cincinnati.

The Court of Appeals, in its decision yesterday, held the alleged errors set up by Lawler in his petition for a new trial were purely technical and had in no way prejudiced his case.

"The crime was a heinous one," the Court says, "and the judgment must be carried into effect."

OUR POLICY

To support such measures as are unquestionably for the good of Mason County as an entire community, rather than such propositions as are in favor of the individual interest, or of one section as against another. And likewise to earnestly and consistently oppose all things that are not for the good of the County as a whole.

PRICES TO DECLINE SLOWLY

Bradstreet's price index of ninety-six staple commodities, ranging from wheat to building brick, foreshadows a downward swing in prices.

Henry Clews' review for the current week forecasts a gradual, but at the beginning slight, declination of prices, foodstuffs being a possible exception, the extraordinary demand from Europe being such, in his opinion, as to maintain the present level on the major commodities.

According to the Wall Street Journal, another good authority, the crest of high prices was reached last July, and the same can be said of the German advance. But since that time the tide has slowly receded, no matter what may be the cause.

On the first of November the index numbers stood at 18,911.6 which was 1.4 per cent less than the figure on July 1, and is one-half of one per cent. less than the average of the first of October. Month by month since July 1 the index has made fractional recessions. But the present level has far to go to again stand on a parity with former years. By comparing the present level of 19,911.6 with 17,070.1 for a year ago, 8,862.0, the figure for November, 1914, and 9,225.2, the average on November 1, 1913, one can see how the war has inflated prices.

But while some of the commodities used in the calculations have declined, others, we know, remained stationary, and some actually advanced. The price of wheat is fixed until the crop of 1919 is marketed. Livestock makes an average decline since July because of a short lived fear entertained by holders of hogs that forced down the price. The price is now fixed by agreement between the Food Administration and the packers in order to stimulate production next year. Corn went down in sympathy with hogs and uncertainty of the future, but now points upward again.

A marked decline in tin, and likewise one in cotton accounted in large measure for decreases in metals and textiles; while the epidemic may explain an increase in drugs and chemicals. But the fact remains that in the principal groups, like building materials, hides, leather, textiles, metals, oils and breadstuffs prices have declined.

AFTER WAR TROPHIES

Many communities whose sons have helped fight Democracy's war have bestowed themselves in an effort to obtain some of the war trophies.

Mason county, not to be outdone by some of the larger cities has appealed to Senator Beckham and Representative Fields. The following communication was sent them last Saturday by the Chamber of Commerce:

A number of our business men have been inquiring as to whether Mason

county is not entitled to a share of the distribution of war trophies.

Several suggested that I get in touch with you and learn if you would exert an effort on our behalf.

Appreciating the kind attention you may be privileged to give this matter, and hoping that you will at all times consider us at your service.

Being 100 per cent. Red Cross is the next best thing to being 100 per cent. American. Red Cross Christmas Roll Call December 16 to 23 gives every one a chance to qualify.

HANK'S FILOSOFY

Do your Christmas shopping early.

Won't the folks have a great time becoming acquainted with the stars when the ban is again lifted?

The daily back fence parties were not in the least affected by the Health Board's orders.

Some who contributed to the "Sanitary Survey" last year to make an epidemic impossible in Mason county would now like to have their money back to help pay doctor's bills.

U. S. GOVERNMENT NEEDS MANY WORKERS

Positions of All Kinds to be Filled Through Civil-Service Examinations in Near Future.

War's demands necessitate the employment of all kinds of labor by the Government, and the Civil Service Commission is advertising examinations for a number of positions that must be filled in the near future.

Surveyor-draftsmen, who will receive entrance salaries of \$1,200 to \$1,500 a year; computers at the Naval Observatory, at salaries ranging up to \$1,200; and at the Nautical Almanac Office, at \$1,000 a year; and chief engineers in the Coast and Geodetic Survey, at \$100 a month, are particularly sought at this time. The maximum age limit has been removed in the chief engineer examination.

There are many openings in the printing trades. Printers, bookbinders, pressmen, electrotypers, linotype operators, and stereotypers are wanted. Printers on hand composition and bookbinders will be paid 60 cents an hour; printers on machine composition and pressmen 65 cents an hour, and workers in other trades 70 cents an hour. Women are eligible for positions as printers. Physical ability counts 10 per cent. in the examination and experience 90 per cent.

Clerks are still in demand. The usual entrance salary is \$1,100, and girls who have had high school or college training are especially sought.

Bookkeepers and bookkeeper typewriters, at \$1,000 a year, will be obtained through examinations to be given December 7, and on December 11 there will be given examinations for calculating-machine operators, at \$900 to \$1,200 a year; typewriter and writer press operators, at \$1,000 to \$1,200 a year; and statistical clerks, at \$900 to \$1,200 a year. The Bureau of Fisheries wants scientific assistants at \$900 to \$1,500 a year, and other offices want physical laboratory helpers at \$600 to \$900 a year. Women are eligible for these positions.

Bureau of Mines experts say that 40,000,000 barrels of fuel oil, one-quarter of the whole amount used in this country, might have been saved the past year by operating plants more intelligently and properly firing. The money loss was \$140,000,000.

Americans in the Red Cross ambulance service received 65 decorations for work performed in one month. This includes 7 silver medals, 4 of bronze and 54 war crosses.

The Red Cross posts a daily news bulletin in 600 places to give our men in Great Britain the news from home.

WHERE SAND IS ACTUALLY BURNED AS A FUEL

Up in the Great Athabaska country, 250 miles north of Edmonton, Alberta, lie the tar sands, or "burning sands" as the Indians call them. For generations the natives have used this sand for fuel. It burns fiercely, with a strong, smokey flame and drops an ash of the purest sand. It also serves to gum their birch bark canoes.

Now a new use has been discovered for the tar sand. The Canadians figure on turning it into explosives and then into dyes. When refined the tar sand yields petroleum, naphtha, illuminating oil, lubricating oil, paraffin and benzine derivatives, and, because of the unlimited quantity of it, the German coal tar products monopoly will be struck a heavy blow by the northland. Nor is this wonderful resource deeply buried, in places. It lies on the surface and is traversed from end to end by a navigable river, the Athabaska.

Fort McMurray is situated in the heart of a tar sand district which covers about 2500 square miles and lies over a bed of Devonian limestone to a depth of from 150 to 250 feet. From

this tar sand flows the "bituminous fountain" of which the famous explorer Mackenzie has written.

The tar sand is composed of sandstone grit, cemented with bitumen or gummed petroleum, according to a writer in the Illustrated World. In places the sand presents a surface like hardened asphalt, in others it forms a plastic mass, and in still others the crude petroleum actually flows out of the sand. On the average the sand, by analysis, contains approximately 15 per cent. bitumen, 4 per cent. water, and 81 per cent. sand.

Regarding the occurrence of these huge deposits of only bituminous or tarry substances along the Athabaska river, R. G. McConnell, B. A., of the Canadian Geological Survey reports that, at several points, Cascade rapid being one, the sand is so saturated that pure tar oozes out and runs down the river bank.

At first this tar sand was considered valuable commercially as a substitute for asphalt, for road building, roofing, insulation and the like, then it was considered for fuel when pressed into briquettes.

UNCEASING MISERY

Some Maysville Kidney Sufferers Got Little Rest or Comfort.

There is little sleep, little rest, little peace for many a sufferer from kidney trouble. Life is one continual round of pain. You can't rest at night when there's kidney backache. You suffer twinges and "stabs" of pain, annoying urinary disorders, lameness and nervousness. You can't be comfortable at work with darting pains and blinding dizzy spells. Neglect these ailments and serious troubles may follow. Begin Dosing Doan's Kidney Pills at the first sign of disorder. Thousands have testified to their merit.

Proof in Maysville testimony. John J. Bramel, bookkeeper, Walnut Street, says: "Doan's Kidney Pills have been of great benefit to me and in fact, I attribute fourteen years of my life to them. It was in 1902 that I was suffering a great deal. After long use of Doan's Kidney Pills, I became well and had no bad effects for many years. Recently, however, I noticed my kidneys were not acting right and my system was generally weak. I knew it was a return of the trouble and I didn't lose any time in getting a box of Doan's Kidney Pills at Chanslor's Drug Store. They again gave me the same good results and I consider them a wonderful medicine."

Mr. Bramel is only one of many Maysville people who have gratefully endorsed Doan's Kidney Pills. If your back aches—if your kidneys bother you, don't simply ask for a kidney remedy—ask distinctly for DOAN'S KIDNEY PILLS, the same that Mr. Bramel had—the remedy backed by home testimony. 60c all stores. DON'T SLOP OVER WITH SYMPATHY AT THIS TIME

If We Do We Are In Danger of Losing the Great Victory Won on the Battlefield.

(Manufacturers Record)

Through neurotic sympathy toward the vilest criminals in the world's history we are in danger of losing the victory won on the battlefield.

Every tear shed by the hypocritical liars and looters and outragers of Germany in pleading for an easier armistice and for foodstuffs is merely a coward's effort to reach the maudlin sentiment of a nation, many of whose people have often been inclined to yield to wrong in preference to standing for the right, thus permitting a cotton string to represent their backbone. The future of civilization would be endangered if we should give any heed to these appeals to the neurotic sentiments of flabby-minded people.

Generosity to a beaten foe is an appeal which touches the sympathy of men and women who foolishly think of this war in terms of the wars of other days. But this was merely a plan to murder in order to rob. The frightfulness which made the hell of Belgium and France and other overrun lands, violating every law of man and God, was merely the fulfillment of the long-time teachings of the whole German people.

The women of Germany appealed for easier peace terms and for an armistice on the hypocritical plea of their sufferings, and thus caught a few American men and women of that neurotic temperament which bedecks the cells of the rapist with powers and fills it with scented notes. We should remind the German women of the dying babies of Belgium and France, of the women outraged through the long four years of war, of the poisoned wells and of all the other horrible atrocities which have marked the accursed work of a nation of fiends a shirt which German women never protected. The man or woman in this country who is not willing to stand bravely for eternal justice in the punishment of the murderer or the rapist is morally and mentally weak and is without a character worthy of the respect of decent, honest people.

America, sentimentally inclined and easily misled by agitators in public as well as in the private life, is always in danger of slopping over. This fact is often seen when some atrocious criminal, having been sentenced to death, immediately evokes the maudlin sympathy of neurotics, who entirely forget the suffering of the victim.

In thinking of Germany we must

think of that nation as of a whole people definitely for years committed to the criminality of the last four years. If we should count as of no avail the deaths of millions of soldiers who have been murdered by Germany, if we should shut our ears to the walls of the women and babies who died on the Lusitania, if we should close our eyes and our hearts to the sufferings of the mangled children and of the women in France, Belgium, Italy and elsewhere dishonored by and with the approval of the German Government and the German people, we would still be bound in duty to all the civilization of the ages to come to stand firm and unflinchingly for the punishment of Germany.

A Baltimore business man of German descent, knowing Germany and the German people for many years, has within the last few days said that the whole German people are laughing in their sleeves as they see the effect which their appeals for mercy are having in this country. He knows the German people. He says Americans do not. He is of German descent and intimately in touch with German life, and he voices the views of intelligent men and women everywhere who, knowing Germany, know that the entire German race upheld the war, gloried in it so long as success seemed certain, rejoiced in the hope of looting the world, cared not that the women and children of Belgium and France and other invaded countries were treated as aever were women and children treated before in human history.

Now these cringing hypocritical liars, these looters and robbers and highwaymen, these deep-dyed villainous murderers are rolling their eyes to Heaven and asking for sympathy, and yet not one single word of penitence has come out of Germany. Not a single word has been uttered by German men or women which indicates any sense of sin or shame, nor have German women expressed any regret for the horrors inflicted upon the people of France and Belgium and Italy and Serbia and Poland by their fathers and husbands and sons.

These unrepentant criminals appeal for sympathy—sympathy for themselves, but not for their victims. Such is the appeal of the German women who so long as Germany was victorious on the battlefield made no effort to stop the war in order to relieve their suffering, but now that they have been forced to stop by the allied police of civilization, and are to be brought before the bar of justice, they are like hypocrites pleading for sympathy and mercy. Sympathy for such a nation would be on a par with sympathy for the Devil himself. The Devil could not possibly surpass Germany in seeking to use the ivory of Heaven for the purpose of doing the work for hell.

America should not slop over. Let

us not waste any neurotic sympathy upon a nation which now seeks by hypocrisy and by lying to win through maudlin sympathy the victory which it lost on the battlefield.

Looking to the civilization of the future and to the standard of morality through the years to come, the world is today in greater danger than it was when the onrush of barbarism was stopped at the Marne in 1914, or when from the Marne the German army was driven back in 1918.

The whole German race joyously adopted the teachings of their leaders and joyously entered upon the war, and has upheld in every way possible every crime committed. Some Germans and people of German descent living in America, and even some dishonoring the name of Christ as his professed followers, blantly boasted of Germany's achievements when it fed to the sharks the bodies of the dying women and children on the Lusitania.

Shall we have a maudlin sympathy for Pilate, for Judas, for Nero? Compared with their opportunity, their crimes were as nothing compared with the crimes of the whole German people.

Christ said:

"Ye serpents, ye generation of vipers, how can ye escape the damnation of Hell?"

Shall we presume to be greater lovers of humanity than Christ Himself?

THINGS YOU CAN'T AFFORD

We have all said "I can't afford it." It is the bugbear of our lives. It is unfortunate that many of us get the habit to the extent that we fail to enjoy many things which we really "can't afford to do without." One of the things which many of the farmers, their wives, and their children can enjoy, and which will be of such great benefit that no one should miss it, is the Short Course now being offered at the University at Lexington.

There is no charge whatever; there is no bar on account of age, sex, or education. The courses are planned to benefit the average farmer and his family, and everything will be done to make your stay at Lexington one of great pleasure and profit. Some of you would do well to take the course in Farm Motors. Your tractor will last longer if you do, and those puzzling balky spells which your car engine gets at times will cease to be a puzzle. The boys are offered the same courses as the men—everything from how to raise more corn and tobacco to bee keeping. The courses in millinery, dressmaking and home conveniences will appeal to every farm girl and her mother, and it will do the men folks good to keep "bach" for a couple of weeks while you are learning something new about old things.

The only expense to the two weeks trip is the car fare, and board for the time you are in Lexington. Arrangements will be made for rooms, so you will be able to get a place to stay without trouble. There should be fifty people in Mason county who will take advantage of this opportunity.

POWER FROM RAIN

There have been numerous attempts at utilizing the energy of sun and the tides, but it is doubtful whether the energy of rain has ever been considered. A little figuring, however, will indicate the enormous force yet unharnessed.

One inch of rainfall is not uncommon in this country, yet every time this happens the earth is moistened with a paltry 113 tons of water to the acre, or 72,480 tons per square mile. The annual average rainfall the world over is estimated at 36 inches. Using this value and first figure, a writer in Popular Science Monthly arrives at the astonishing result that the average rain falling on one square mile in a year is 2,609,280 tons in weight. How small is this figure, though, when compared to parts of British India where the precipitation is given at 610 inches.

A law of physics says that work equals force multiplied by the distance through which it acts. Consider the energy of all this weight of water falling from the clouds. The height of clouds is estimated at from two to three miles, but allow for seasonal variation and the lower height of rain clouds let us take 2000 feet. Using this figure it is found that the average work done by falling rain in 24 hours is 22,320 per acre—assuming the annual average rainfall of 36 inches distributed uniformly throughout the year.

A CHALLENGE TO THE PEOPLE OF KENTUCKY

Now That They Have Won the War
Will Food to Save the World
the Same Way.

Louisville, November 27—The conference here of County Food Administrators and women Conservation Chairmen, attended by more than 300 from all parts of Kentucky, was the largest gathering of war work leaders yet held in the South. It was conducted by Federal Food Administrator Fred M. Sackett as a preliminary to World Relief Week, and R. W. Boyden, of Massachusetts, head of the national enforcement division of the Food Administration, said it was the most successful one he had ever attended anywhere.

The conference was held at the Seelbach Hotel and lasted two days. On the opening day the keynote address was made by Mr. Boyden, who said that food had won the war and now food was going to save the world.

"Cessation of hostilities could not add one ounce to the world's food supply, but it did add to our opportunity and our duty of feeding additional millions of people," Mr. Boyden said. "We must not only feed these we have heretofore been feeding, but other millions in Russia who were not accessible before and even the starving women and children in the Tenebris countries and among their hitherto subject peoples."

Mr. Boyden also conveyed the message that Mr. Hoover had come to Europe conscious that the American people would carry out any food program which the Allied nations agreed upon.

Federal Food Administrator Sackett, in a brief address, thanked Mr. Boyden for his expressions of confidence in the people of Kentucky, after which the county administrators and chairmen, on motion of Judge Joe Price, of Benton, by rising vote pledged their unanimous cooperation to Mr. Hoover and Mr. Sackett, and the cooperation of the people of their counties, until the need for such cooperation should no longer exist. Thus the State went on record, and Mr. Boyden left Kentucky confident the promise would be kept.

A conservation dinner in honor of Mr. Boyden was given by Mr. Sackett at which every visiting man and woman food worker was present. At this meeting the administrators and chairmen sprang a surprise on Mr.

Sackett by presenting him with a loving cup. The presentation address was made by W. E. Slims, Lexington administrator.

At this session the Rev. Dr. Charles W. Welch laid down a "challenge" to the people of Kentucky, a challenge, now that they had won the war by saving food, to save the world by sending food. Again the delegates, by rising, placed themselves on record.

The administrators and chairmen left Louisville filled with enthusiasm and determined to make World Relief Week a success from every viewpoint.

WORLD'S LARGEST CLOCK

Los Angeles, Cal.—The world's largest pedestal clock erected in the center of the new \$10,000,000 wholesale terminal, has been formally dedicated. On a cement base six by twelve feet the time-piece looks down from a height of thirty-six feet. It automatically operates its own lighting system at sundown and shuts it off at daylight, winds and sets itself and is altogether its own handy man. The four huge dials can be seen from any part of the twenty acres covered by the market place.

Ice skates have been sent to the American soldiers in Russia by the Red Cross.

OUR LETTER BOX

Correspondents will please give facts as briefly as possible. When anything of great importance occurs use the Telegraph or the Telephone at our expense.

Washington
The Spanish influenza epidemic has been rather alarming here, and although the situation seems much improved at present, it is not probable that our schools will reopen for some time yet.

Miss Martha Boulden returned to her home on Tuesday after spending two weeks with her sister, Mrs. Bland Kirk.

Mr. Bland Kirk and children and the Misses Galtner have been ill with the "flu." Dr. Pollock is suffering from a second attack of the disease.

The telephone service has been considerably crippled owing to illness among the employees at the exchange. Some of them have sufficiently recovered to be able to be at their post of duty again.

Mr. C. S. Davis received official notice November 24th that his son, Joseph Claybrook Davis, was killed in battle October 14th, 1918, while doing his part towards making the world safe for democracy.

Joe Davis was an industrious, manly fellow and highly respected in his community. He left Mason county with the first contingent of drafted men in September 1917, received his training at Camp Taylor, came home on a short furlough to visit his father last Christmas, and left for overseas duty early in the year 1918. His letters home were always bright and cheerful, he having repeatedly said that he expected to be home for Christmas 1918. After the news of peace, his father felt that the realization of this hope was almost in sight, and when the word came that he had been called on to make the supreme sacrifice, it came as a greater shock to him. Mr. Davis has the sympathy of the entire community in his great loss.

Cataract Cannot Be Cured
with LOCAL TREATMENTS, as they cannot reach the seat of the disease. Cataract is a local disease, greatly influenced by constitutional conditions, and in order to cure it you must take an internal remedy. HALL'S CATARACT MEDICINE is taken internally and acts thru the blood on the mucous surfaces of the system. Hall's Cataract Medicine was prescribed by one of the best physicians in this country for years. It is composed of some of the best known purifiers. The perfect combination of the ingredients in Hall's Cataract Medicine is what produces such wonderful results in cataractal conditions. Send for testimonials, free.

C. & O. DETECTIVE GUILTY OF MURDER AT HUNTINGTON

J. J. Bastian, Well Known Railroad Sienth, Found Guilty of Second Degree Murder.

"Guilty of murder in the second degree" was the verdict returned at about 10:15 last night at Huntington, W. Va., in the case of the State of West Virginia vs. J. J. Bastian for the killing of Charles Jackson there on the night of August 26, last. Accompanying the verdict, or rather a component part thereof, was a recommendation for mercy. Sentence was deferred till Friday, when it is probable a motion for a new trial will be presented and argued. Imprisonment in the penitentiary from 5 to 18 years is the penalty provided for the offense of which Bastian stands convicted.

It will be remembered Bastian shot Jackson at the Huntington C. & O. depot on the night of August 26, and it was preceded by scenes of wild disorder. A train carrying 480 laborers re-entered in the southwest and enroute to Lee Hall, Va., had arrived.

Word had been received that the men were causing trouble at every stop, and another outbreak was anticipated when the train arrived at Huntington. To help to maintain good order, Bastian, a special agent (commonly called a railway detective) of the C. & O., was detailed to be at the station. Not long after the train came in, when there were several hundred people on the platform, the new-comers held high carnival. It was contended that Bastian was the ring-leader in every disturbance. At the station, Bastian claims he sought to arrest Jackson at a time when excitement was running high. A moment later Bastian drew his revolver and fired. Jackson walked a short distance and then fell mortally wounded, dying at 2 o'clock the next morning at the Huntington General Hospital.

Bastian testified that he did not shoot until Jackson made a move with his right hand indicating that he was going to draw a gun from his hip pocket. Soon after the shooting it was ascertained that Jackson was not armed; and it is supposed that Bastian did not know at the time that Bastian was an officer. (The prosecution contended that Bastian did not possess any official authority.)

FIRE NEAR FLEMINGSBURG

Saturday night the home of W. J. Kissick about two miles from Flemingsburg caught fire and was destroyed together with most of the contents. The fire started in the ceiling and was possibly due to a defective flue. The house burned rapidly and only a few things were saved. Insurance of \$1000 was carried with the Lawson Insurance Agency, but this will cover but a part of the loss. The smoke aroused Mr. Kissick and his family who had retired for the night. Four children were up stairs asleep and Mr. Kissick barely had time to get them out in their night clothes. The exposure in the cold night air caused one of the children to have the croup, but all were well cared for by neighbors and friends.

REPORT OF BIG FOOD CONFERENCE GIVEN WORKERS

Women Food Conservation Workers Are Told of Great Louisville Meeting.

Fourteen of the twenty-two precincts of Mason county were represented yesterday afternoon at a meeting at the Public Library of the County of Food Conservation, Maysville No. 1 was represented by Mrs. Charles M. Hancock, Maysville No. 2 by Misses Anna Shackelford and Anna McElmough; Maysville No. 3, Mrs. John C. Everett; Maysville No. 4, Mrs. Frank A. Vines and Miss Mary Wilson; Maysville No. 5, Mrs. W. J. Caplinger; Maysville No. 6, Miss Zorayda Cochran; Dieterich, Mrs. H. C. Hoffman; Mrs. C. P. Dieterich and Miss Mary Wood; Plumville, Mrs. W. W. Davenport; Mrs. W. S. Tully and Miss Ora Lee Elliott; Lewisburg, Mrs. T. J. Galtner; Washington, Mrs. Arthur Wood; Hillsop, Mrs. John Cochran and Miss Esther Reubenacker; Plughtown, Mrs. R. B. Holton; Fernleaf, Miss Hattie Norris; Germantown, Miss Elizabeth Owens.

Health conditions and hog killing were responsible for the absence of the precincts, which will be called together for a meeting at an early date. The County Food Conservation Chairman, Miss Alice Lloyd, made report of the recent conference held in Louisville of the County Food Administration and the County Food Conservation Chairmen throughout the state. Three hundred among the best men and women of Kentucky were called together at the expense of the Federal Government for the purpose of having placed before these representatives of each county in the state the tremendous need of the disastored counties of Europe for the food that only America can supply.

The conference was addressed by Mr. R. W. Boyden, head of the Law Enforcement Division of the United States Food Administration who came as Mr. Hoover's personal representative, by Mr. Fred M. Sackett, Mr. J. W. Burns, Philip Brown (colored), Mr. T. R. Moss, Mrs. Morris Gifford, Mr. W. H. Kane and Miss Alexina Booth.

The speakers commended the work of all those who had contributed to the success of the food conservation work during the past year and one half but stressed the importance of inducing more people to save and of everybody saving more because America is pledged to send 50 per cent. more food to Europe this year than last.

The connection between anarchy and hunger was emphasized and the danger to all civilization from the spread of anarchy. The situation makes appeal to our humanity, our Christianity. Stable governments can not be formed by starving mobs, and peace treaties that can be maintained can not be made until stable governments are formed. The failure to establish a stable government in Russia after the revolution was due to lack of food. Mr. Hoover has sought at all times to maintain a safe food supply in all our large cities to prevent riots and outbreaks. Seizing the fruits of victory waits upon American rushing supplies of food to 180,000,000 people, victims of the war, who stare starvation in the face unless help comes quickly.

Mr. Hoover has asked that the week of December 1-7 be observed as World Relief Week and that this message of the world's needs and our duty to supply it be carried by the churches, men's fraternal organizations, women's fraternal organizations, the schools and by mass meetings.

On Sunday, December 1 every minister will be asked to read from his pulpit a message from Mr. Hoover. The presiding officer of every fraternal order will be asked to read this message at the weekly meeting of his lodge. The women's organizations will be asked to hold a meeting on Wednesday, December 4, and carry out a program which will be furnished them. On Friday, December 6, every school in the United States is asked to have a program of exercises setting forth the need of food conservation to save vast numbers of people from starvation. Parents and friends of the children are asked to attend these exercises.

Emphasis was laid on the importance of mass meetings for the purpose of creating enthusiasm in the conservation of food by giving information as to the dire need for the sake of saving life and of securing the fruits of our military victory by quieting the hunger of European peoples until they can form new governments, plant crops and supply their own needs.

Cognizance was taken of the fact that while there is inspiration in having the same days of the same week observed throughout the country for these programs, it will be necessary to adjust to local health conditions.

For something new in toys, see our complete stock. **DE NUIZE.**

BANK OF MAYSVILLE

Maysville, Ky.

A Combined Bank and Trust Company, operating Commercial, Savings, Trust and Safe Deposit Departments. 3 per cent. Interest Paid on Savings Accounts.

ESTABLISHED 1835.

WILLIAM DUGGLES DEAD

William Duggles, aged 51, died at his home on the Lexington pike near this city last night of dropsy. His wife and nine children survive.

Funeral services by Rev. J. E. Reed will be held at the grave in the Maysville cemetery Thursday afternoon at 2:30 o'clock.

ALEXANDER-JODREY

Mr. Earl Jodrey and Miss Della Alexander, both of Winchester, Ohio, were married here today by Dr. John Barbour of the First Presbyterian Church.

J. L. Denton, a prominent tobacco broker of Paris, who has been on the tobacco market at LaGrange, North Carolina, has returned home. He reports demand for tobacco heavy, prices high and market steady. The prices have shown an advance of three to six cents over one year ago.

Misses Zorayda Cochran, Rebecca Hochinger, Martha Green Sharp, Elizabeth Luttrell and Frances Clarke and W. D. Cochran, Jr., motored to Danville today to witness the annual Thanksgiving football contest between Centre and Georgetown tomorrow.

Mrs. Arthur Hicks and Mrs. Sam Porter left this morning for Philadelphia where they will join the former's husband, who has a lucrative position.
